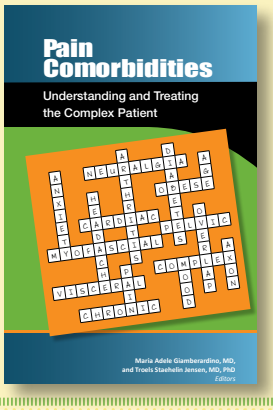
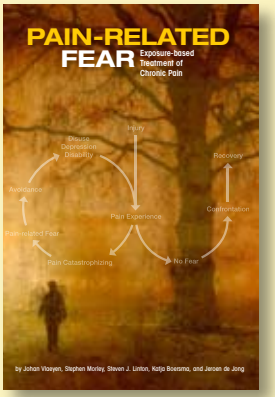
The Latest Word on Pain



Pain Comorbidities: Understanding and Treating the Complex Patient
edited by Maria Adele Giamberardino and Troels Staehelin Jensen.
ISBN: 978-0-931092-92-3, paper.

The occurrence of multiple, concomitant medical conditions is very common and is becoming increasingly more frequent as the population ages. *Pain Comorbidities* provides a contemporary understanding of the nature, modalities of diagnosis, and treatment of complex clinical situations involving multiple concurrent diseases and their influence on the experience of pain. Important attention is paid to therapeutic aspects of the comorbid patient, ranging from the role of the multidisciplinary pain clinic and of pharmacological treatment—with particular emphasis on antidepressants—to the role of physical training and rehabilitation and of a psychological management approach.

Price: **US$85.00** (IASP Members: US$70.00)



Pain-Related Fear: Exposure-Based Treatment of Chronic Pain
by Johan W.S. Vlaeyen, Stephen J. Morley, Steven J. Linton, Katja Boersma, and Jeroen de Jong.
ISBN 978-0-931092-87-9, paper.

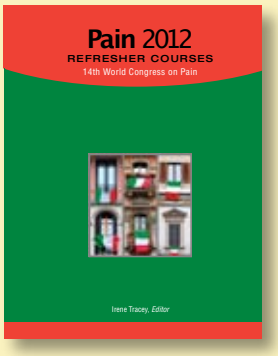
Many people with chronic pain avoid activities that they fear may result in harm. This book provides a guide to the treatment of pain-related fear based on the principles of exposure. International experts provide practical advice on assessment, treatment goals, and graded-exposure behavioral experiments that may be easily applied in routine clinical practice. This is the definitive handbook on fear avoidance.

Price: **US$75.00** (IASP Members: US$60.00)

The Phenomenon of Pain
by Serge Marchand.
ISBN 978-0-931092-91-6, paper.

The Phenomenon of Pain clearly describes the physiological and psychological mechanisms involved in the development and persistence of pain. Serge Marchand provides practical details on treatment methods, outlining pharmacological as well as nonpharmacological options and presenting a case for an interdisciplinary approach. This adaptation of the original French version helps the reader understand the various factors surrounding the complex phenomenon of pain.

Price: **US$70.00** (IASP Members: $55.00)



Pain 2012: Refresher Courses, 14th World Congress on Pain
edited by Irene Tracey.
ISBN 978-0-931092-93-0, paper.

An informative collection of articles by noted experts that gathers in one place current information about the study and management of pain throughout the world. Edited by Irene Tracey, *Pain 2012* brings together the presentations that these experts will give at the refresher courses that precede the biennial World Congress on Pain in Milan, Italy, in August 2012. These articles are published in one book for use at the refresher courses, as well as for medical researchers and clinicians who want an overview of contemporary pain research and management.

Price: **US$40.00**

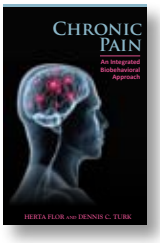
Important Bestsellers

Cancer Pain: From Molecules to Suffering, edited by Judith A. Paice, Rae F. Bell, Eija A. Kalso, and Olaitan A. Soyannwo. ISBN: 978-0-931092-81-7, 354 pages, paper.

An in-depth analysis by noted international experts of basic and clinical research on cancer pain, *Cancer Pain: From Molecules to Suffering* describes underlying mechanisms of cancer pain and reviews opioid treatment issues. It covers current drug trials and research, clinical trial designs, common reactions including inflammation and hyperalgesia, the psychology of cancer pain, and disparities in the availability of cancer care worldwide.

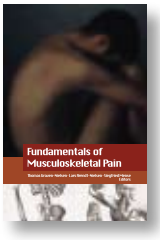
Price: **US$75.00** (IASP Members: US$60.00)



Chronic Pain: An Integrated Biobehavioral Approach, by Herta Flor and Dennis C. Turk. ISBN 978-0-931092-90-9, 547 pages, paper, with CD-ROM.

Flor and Turk successfully integrate current psychological understanding with biomedical knowledge about chronic pain. With an emphasis on psychological factors associated with chronic pain states, this volume includes recommendations for a structured assessment plan. Using detailed treatment protocols and case examples, the authors aim to guide clinicians in developing effective individualized treatments for their chronic pain patients.

Price: **US$95.00** (IASP Members: US$75.00)



Fundamentals of Musculoskeletal Pain, edited by Thomas Graven-Nielsen, Lars Arendt-Nielsen, and Siegfried Mense. ISBN 98-0-031092-95-4, 502 pages, paper edition.

Musculoskeletal pain is a major medical and economic problem that encompasses a broad range of conditions, including fibromyalgia, work-related myalgia, low back pain, and arthritis. The editors integrate research findings from the field of musculoskeletal pain into a comprehensive publication that explores translational aspects relevant to clinical pain.

Price: **US$70.00** (IASP Members: US$55.00)

Mechanisms and Management of Pain for the Physical Therapist, edited by Kathleen A. Sluka. ISBN 978-0-931092-77-0, 441 pages, paper.

Mechanisms and Management of Pain for the Physical Therapist covers the basics of pain neurobiology and review evidence on the mechanisms of action of physical therapy treatments, as well as their clinical effectiveness in specific pain syndromes. The book is a comprehensive textbook for the management of pain for the physical therapy student and reference for the practicing physical therapist.

Price: **US$90.00** (IASP Members: US$70.00)

Pain Management for Older Adults: A Self-Help Guide by Thomas Hadjistavropoulos and Heather D. Hadjistavropoulos. ISBN 978-0-931092-70-1, 201 pages, paper.

A useful resource for older adults that offers a variety of practical, easy-to-follow techniques to help them manage their pain.

Price: **US$29.95** (IASP Members: US$25.95)

Pharmacology of Pain, edited by P. Beaulieu, D. Lussier, F. Porreca, and A. Dickenson. ISBN 978-0-931092-78-7, 622 pages, hardbound

A complete review of the pharmacology of pain, including mechanisms of drug actions, clinical aspects of drug usage, and recent developments. A useful resource for basic researchers and clinicians, this authoritative book describes the different systems involved in the perception, transmission, and modulation of pain and discusses the available options for pharmacological treatment of pain.

Price: **US$100.00** (IASP Members: US$80.00)
